USRowing Registration

Racing this year? You <u>must</u> join USRowing *and* sign your USRowing waiver
online <u>before</u> competition. Here's how:

1. Go to www.usrowing.org and click on "Join & Renew" or go directly to
the membership portal by clicking here. If you've never had a USRowing membership, complete
step 2. Otherwise skip to step 3.

2. Click on the "Join" tab and you'll be directed here. Type in "Greater" and choose us from the
club options (our club number is #1301 if you need to search by number). Next, you will be
asked to enter a club verification code: **YBFYD**. Follow the instructions from there and don't
forget to sign the online waiver once your membership profile is set up.

3. If you already have a USRowing membership profile (for example, if you did all this last year),
then click on Members > Sign Waiver. You'll have to have your membership number and
password. OR...check out the "Express Renew/Upgrade" and "Express Waiver" options -- click
there, and you can have a link sent to your mobile phone or email address to complete the
steps. If you need to renew first, see below.

4. You might first need to renew your membership. Basic membership is required -- it is now
$9.75. If you intend to participate in an event like Masters Nationals, you will need a
Championship Membership. It's more expensive but comes with a subscription
to Rowing Magazine! If you intend to compete in the future, I recommend the automatic
renew feature. You'll still have to sign your waiver every year but you won't have to go through
the renewal process. Be sure that your membership profile shows you affiliated with GCRA --
this will connect you to our club roster linked with Regatta Central for race entries. If you need
to add a club affiliation to your membership profile, edit your profile to add the club (and note
the club code below).

Once this is done, you are a compliant member of GCRA's USRowing roster and the information
will be linked with Regatta Central for any race entries!

Email gcrapresident@gmail.com if you have any questions.
